ST. VINCENT'S ANNOUNCES ONE NINETEEN CAMPUS EXPANSION

Ambulatory Surgery Center, Urgent Care Center and Professional Building To Open In 2015

BIRMINGHAM, Ala. — St. Vincent's Health System announced today a \$15.6 million expansion of its St. Vincent's One Nineteen Campus. The 40,000 square foot expansion will include an ambulatory surgery center, an urgent care center and additional professional office space. The project is expected to begin this Fall with completion slated for early Fall of 2015.

Expansion has been planned since the \$35 million One Nineteen facility was built almost 10 years ago. It will be part of the system's infrastructure for population health and person-centered care.

"We are excited about the opportunity to continue serving this community in a very accessible way," said STVHS President & Chief Executive Officer John O'Neil. "When we built our St. Vincent's One Nineteen facility almost 10 years ago, we were dedicated to creating person-centered, quality care through the first health and wellness center of its kind in our community. The latest expansion builds on this unwavering mission to deliver the right care, at the right time, in the best way possible."

Currently, St. Vincent's One Nineteen has 35 physicians in 14 medical specialties, a comprehensive outpatient diagnostic imaging center, rehabilitation services, GI Lab, and wellness services and classes. These services are in addition to the spa and fitness center.

About St. Vincent's One Nineteen

A part of St. Vincent's Health System (STVHS), St. Vincent's One Nineteen provides an integrated approach to health, combining medical services such as physician specialists, diagnostics, physical therapy, GI services, and lab services with a fitness center, education and wellness services, and a spa. In addition, STVHS is a member of Ascension Health, which offers the resources of the nation's largest not-for-profit and largest Catholic healthcare system.
